DETAILED ACTION

Allowable Subject Matter

1. Claims 12-22 are allowed.
2. The following is an examiner's statement of reasons for allowance:
 - a. With respect to claim 12, the claim has been found allowable over the prior art of record because the prior art of record fails to teach or fairly suggest a MR apparatus comprising a force generator attached to said at least one electrically conductive structure, said force generator being designed and controlled for mechanically applying forces to said electrically conductive structure to counteract said Lorentz forces in combination with the remaining limitations of the claim.
 - b. With respect to claims 13-22, the claims have been allowed due to their dependency on claim 12 above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
